

THE LEGEND LIVES ON

Verse 1

From Tupelo roads to Memphis nights,
From humble dreams to city lights.
A young boy's song began to fly,
And touched the stars across the sky.

Chorus

The legend lives on, the music survives,
In every heart where a memory shines.
Though the years roll by and the seasons are gone,
The spirit remains, the legend lives on.

Verse 2

The records spin, the stories stay,
New generations find their way.
The voice still echoes through the years,
Through joy and hope, through smiles and tears.

Chorus

The legend lives on, the music survives,
In every heart where a memory shines.
Though the years roll by and the seasons are gone,
The spirit remains, the legend lives on.

Bridge

From gospel songs to rock'n'roll,
He gave the world a piece of soul.
And every stage, and every line,
Still lives beyond the hands of time.

Final Chorus

The legend lives on, the music survives,
In every heart where a memory shines.
Though the years roll by and the seasons are gone,
The spirit remains, the legend lives on.

Outro

The curtain fell, but not the song,
The melody keeps moving on.
Wherever music finds a home,
The legend lives on.
